

National Capital Region jurisdictions, drinking water and waste water entities, and school systems were surveyed and asked to identify all current contracts that, at least in part, include environmentally preferable products and services and whether the COG Rider Clause is included in the contract. The results are compiled into this Green Contracts Database to assist with local green purchasing efforts by (1) identifying contracts that COG Cooperative Purchasing Program Members can "ride" to acquire the same product or service and (2) connect with other members to share specifications and experience with the product/service (implementation and product quality).

Jurisdiction	Contact	Contract Number	Commodity Environmentally Preferable Product(s) or Service(s)	COG Rider Clause? (select from drop down menu)	Comments Implementation and Product Quality
Arlington County	Maria Meredith	569-13	Solar Crosswalk Flasher	No	Solar Pedestrian Activated crosswalk flashers
