Library eBooks for
Kindle

What you will need

- Valid Fairfax County library card
- Amazon.com account
- Kindle device (with Wi-Fi on or with a USB cable) or Kindle app
- Computer or Kindle Fire with Internet access

Optional: Kindle Fire users can download the OverDrive mobile app to access EPUB eBooks and mp3 eAudiobooks. Please refer to the OverDrive App handout for detailed instructions.

Search for OverDrive eBooks

1. On a computer or Kindle Fire, go to <http://www.fairfaxcounty.gov/library>.
2. Select **eBooks on OverDrive** under Online.
3. Search for a title or author or tap the menu icon on the right to browse Subjects or Collections. Use **Advanced Search** for more options, or use the Filters to limit by availability or the **Kindle Book** format.
4. If the title is available, select **Borrow** below the book cover. Enter your library card number if prompted. If preferred, check the box to remember your card number on the device. (See other side for information about placing holds).
5. Titles are added to your **Loans**, which can be accessed through the book icon at the top of the screen. 
6. Select **Choose a Format** and then **Kindle Book**.

Transfer an eBook to a Kindle via Wi-Fi

1. Selecting **Kindle Book** opens the Amazon page “Get Your Digital Library Loan” in a new window.
2. If you are signed in to your Amazon account, select your device then select **Get Library Book**. If not signed in to your Amazon account, select **Get Library Book** before signing in and selecting your device.
3. If your device is connected to a Wi-Fi network, the eBook will download to your Kindle device. If the title does not show up automatically, select **Sync and Check for Items** from the Kindle menu.
4. To read your eBook, look in the Home folder. If you have a Kindle Fire, your book will be in your Carousel.

Holds

1. If a title is not available, select **Place a Hold** below the book cover. Enter your library card number and password if prompted.
2. When the title becomes available it will be automatically checked out to your account and you will be notified by email.
3. Check the status of your holds at any time. Select the menu icon at the top right of the screen then select **Holds** to view your holds and your place on the holds list for each item. You may edit your notification email address, remove holds you no longer want, and suspend holds for up to 180 days.

When a hold becomes available

You will receive an email from Fairfax County Public Library from the address **donotreply@overdrive.com**. If your titles are not set to be automatically borrowed, the hold will expire if not checked out within 96 hours.

1. Select the link in the email to **Fairfax County Public Library website**.
2. Enter your library card number and password if prompted.
3. If your titles are set to be automatically borrowed, download the title from the **Loans** page. If not, borrow and download the title from the **Holds** page.

Return a book early

1. Sign in to your Amazon account.
2. Under **Your Account**, select **Manage Your Content and Devices**.
3. Select **Actions** next to the title you want to return then select **Return this book**.
4. When asked "Are you sure you want to return this Library Loan Ebook?" select **Yes**.

If a title has not yet been downloaded, it may be returned from the **Loans** page of the OverDrive catalog.

Renew

The option to renew a title becomes available three days before the title is set to expire and appears under the title in your **Loans**. You can only use the renew feature once per title. If other users are waiting you can **Request** the title, which places you into the waiting list.

Transfer an eBook via USB cable from PC, laptop or Mac

1. If you do not have a Wi-Fi connection, you will need to transfer your book via USB cable. After choosing the **Get Library Book** button, select "Transfer via computer" in the drop down box and select **Continue**.
2. On the next screen, choose the Kindle you will be using and select **Continue**. You may need to allow your browser to download the file.
3. When prompted to find or save the file, select **Save**, and save it somewhere easy to find such as your computer desktop.
4. Connect your Kindle to your computer using the USB cable.
5. Open the Kindle drive on your computer.
6. With the Kindle drive open, find the eBook file you just saved. Copy and paste it or drag it into the Kindle **Documents** folder. If you have a Kindle Fire, copy and paste or drag it to the **Books** folder.
7. Safely eject your Kindle device from your computer and unplug the USB cable.
8. The book will appear in the Kindle's Home folder or the Books tab for Kindle Fire users.
